

A dark, irregular ink blot with white text "Sezione scientifica" centered on it. The blot is surrounded by a light, textured background with scattered dark specks.

Sezione scientifica

LE PREVISIONI

SECONDO NOI !!!

The bulletin board is divided into four columns. Each column contains a short text passage and a small weather map. Below the text are four hand-drawn thought bubbles containing additional notes. The top row features the title 'LE PREVISIONI' on the left and 'SECONDO NOI !!!' on the right, with a small red and white striped graphic between them.

BAROMETRO

LA PRESSIONE ATMOSFERICA

The barometer experiment setup includes a central card with a blue background, a sun illustration, and a diagram of a barometer tube. The card is titled 'BAROMETRO' and 'LA PRESSIONE ATMOSFERICA'. It shows a tube with a red liquid level. Surrounding the card are several glass jars with colored caps (pink, yellow, red) and some containing colored liquids (blue, yellow, red). Thin sticks are placed across the jars, possibly to hold them in place or as part of the experiment.
